📍 El Obour, Egypt

Profile

I am a dedicated and versatile professional with a strong foundation in both development and data annotation. My expertise spans HTML, CSS, and JavaScript for front-end development, with advanced skills in Laravel for back end development. Alongside my proficiency in Node.js, PHP, Python, and version control tools like Git and GitHub, I have gained valuable experience in data annotation. This role has enhanced my ability to analyze and label data accurately, ensuring its readiness for machine learning and AI applications. My commitment to continuous learning allows me to deliver innovative, detail-oriented solutions that meet modern technological demands

Professional Experience

2024 – 2025 Smart Village, Egypt	Software Engineer Intern During my training at Telecom Egypt, I gained valuable insights into corporate work life and deepened my understanding of fundamental software development concepts. This experience covered the Software Development Life Cycle (SDLC), basics of software testing, an introduction to UI/UX design, and an overview of mobile application development
2024 – 2025 Nasr City, Cairo	Data Annotator Micro Engineering Data Labeler at Micro Engineering Egypt-MEEG, METI Company, where I contributed to the development of machine learning models by carefully annotating and organizing data. This position called for a high level of precision, attention to detail, and understanding of data structures to ensure quality and accuracy in labeled datasets that are critical for AI applications.

Education

2025 – Present 5th Settlement	Software Development NCTU - New Cairo Technological University
2021 – 2024 Nasr City, Egypt	Diploma of applied Technology WE ATS (Programming department)

Courses

2025 – Present online	ITI Laravel Information Technology Institution PHP - Laravel full stack course
